

Street & Sanitation

The Street Department maintains 106 miles of streets within the city limits of Bolivar. Our department provides several services including leaf and brush pick-up. All items other than demolition materials, tires and appliances containing Freon are picked up at curbside, during April and October. The city street sweeper operates on a daily basis.

The Sanitation Department provides weekly door to door curbside waste pick-up to residents within the city limits at a \$10.00 fee per month. Dumpsters are provided to all businesses inside the city limits. Fees are based on size of business and the frequency of being emptied.
